MSC is dedicated to being green friendly!

April is host to Earth Day 2011! April 22nd!

April is the 1 year anniversary to when MSC switched over to single stream recycling at the majority of it's properties for it's trash removal process!

Five scary facts about recycling:

1. Recycling one aluminum can saves enough energy to run a 100-watt bulb for 20 hours, a computer for 3 hours, or a TV for 2 hours.
2. Every year we make enough plastic film to shrink-wrap Texas.
3. Americans dump the equivalent of more than 21 million shopping bags full of food into landfills every year.
4. Recycling paper instead of making it from new material generates 74 percent less air pollution and uses 50 percent less water.
5. About 75% of the water we use in our homes is used in the bathroom
